

**CASE STUDY: Intas Pharmaceuticals Ltd.**

## **Intas Pharmaceuticals Ltd. Chose Matrix Time-Attendance Solution to Increase Productivity of their Ahmedabad Premises**

### **Project Highlights:**

Application: Time-Attendance

Users: 1,000+

Devices: 45

Locations: Ahmedabad, India (Single Location)

Readers: Fingerprint (with Optical Sensor)

Industry: Pharmaceuticals, Manufacturing

### **Company Profile:**

Intas is a leading, vertically integrated global pharmaceutical formulation development, manufacturing and marketing company headquartered in India. Intas is currently ranked 10<sup>th</sup> in the Indian Pharma Market with 2.80% market share. In the domestic market, Intas is the 4th largest corporate in Indian Chronic Pharma Market with a market share of 5.32%. Besides rapidly growing domestic prominence, Intas is also present in more than 70 countries worldwide with robust sales, marketing and distribution infrastructure in markets like North America, Europe, Central and Latin America, Africa, Australia, New Zealand, Asia-Pacific as well as CIS and MENA countries.

### **Challenges:**

As per the guidelines provided by US-FDA, the employee needs to take certain man-hours of training as per their designation. Intas found it difficult to have a manual check over 1,000+ employees and count their training hours. They were in search of an automated solution which tracks training of every employee. Intas also wanted to integrate Matrix [Time-Attendance software](#) with their Training Module so that records of each employee are stored under a single roof. In short, they wanted to switch from manual cumbersome process to an easy on-click process.

### **Solution Offered:**

Matrix offered its Biometric Time-Attendance solution to automate the training of Intas employees. The trainer comes to class with Matrix COSEC PATH BBU – a handheld biometric device. Employee marks a punch on Biometric device at the time of start and end. These events get stored in Matrix COSEC PATH BBU. As soon as the device is connected to server, all the stored events get auto pushed to the server. Matrix Time-Attendance software takes this events as input and gives output in the form of training man-hours of individual employees. The software seamlessly gets integrated with their training module. Thus, with Matrix Time-Attendance solution Intas was able to automate its training cell process in an easy way, while maintaining all the records digitally.

### Solution Diagram:

### Results:

- Automated the whole training cell process whereby everything is now maintained in a single software.
- Saved employee time and increased productivity as no manual calculation of training hours for 1,000+ employees is required.

### The Products

Product	Quantity	Description
COSEC PATH DCFE	45	Fingerprint and in-built Card based Door Controller with PoE and IP65
COSEC PATH BBU	45	Power Supply Battery Backup for PATH Series Door Controllers
COSEC CENTRA LE	1	Application Server Platform with 1000 Users and Expandable up to 1 Million Users for Basic Access Control and Raw Event Data
COSEC LE TAM	1	Time-Attendance Module for COSEC CENTRA LE Users

### About Matrix

Established in 1991, Matrix is a leader in Telecom and Security solutions for modern businesses and enterprises. Matrix, an innovative, technology driven and customer focused organization, is committed to keep pace with the revolutions in the telecom and security industries. With more than 40% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products like IP-PBX, Universal Gateways, VoIP Gateways and Terminals, GSM Gateways, Access Control, Time-Attendance and Video Surveillance solutions. These solutions are feature-rich, reliable and conform to the international standards. Having global footprints in Asia, Europe, North America, South America and Africa through an extensive network of more than 1,000 channel partners, Matrix ensures that the products serve the needs of its customers faster and longer. Matrix has gained trust and admiration of customers representing the entire spectrum of industries. Matrix has won many international awards for its innovative products.
