Matrix to showcase innovative Security solutions at ASIS, DALLAS, TEXAS

Matrix, a leading manufacturer of Telecom and Security solutions, is participating in ASIS 2017, from 25th – 28th September 2017. Matrix, with a strong history of delivering cutting-edge products and innovative solutions, will showcase its well-engineered Security solutions specifically designed for enterprises.

Here at ASIS 2017, Matrix will showcase its range of Biometric [Access Control solution](#) and its advance applications. Mobile being the next generation technology in terms of Security, Matrix will display its “Your Mobile Your Identity” themed Access Control solution whereby user either scans the QR code through mobile or simply twists his mobile to gain access. Furthermore, Matrix will launch COSEC People Mobility Management solution based on cloud technology that allows users to use application, hardware and infrastructure as a service. Cloud technology addresses solutions to the outlined issues of flexibility, scalability and efficiency by providing ubiquitous, cost-effective, secure and on-demand network access. Matrix will present its Standalone Access Control solution, with the help of which one can connect up to 255 devices and 25,000 users, without a server.

Matrix will also display its range of [IP Video Surveillance solutions](#) that include enterprise level VMS, NVRs, and IP Cameras. The entire solution is focused on solving the three major pain areas of customers, namely difficulty in centralized management and monitoring, bandwidth and storage cost and reactive security. Some of our path breaking features on display include Event based Edge Recording and Notification with Distributed Architecture VMS, Adaptive Recording and Compression to Save 40% Storage, Centralized Monitoring and Management without Server and Public IP, Safeguard Data with Redundancy and User based Roles and Rights, Real-time Notification and Intelligent Video Analytics like People Counting, Face Detection, and Calling from Mobile App. Experience of such features will help you differentiate a Video Surveillance solution from box moving devices and cameras available in the marketplace.

Visit Matrix at ASIS 2017, DALLAS, TEXAS from 25th-28th September 2017 at Booth No: 740.
