Matrix Unites with Southco for an Exemplary Data Centre Security Solution

Matrix - A Pioneer in Security solution opportunely joins hands with **Southco** - A Trusted Global Leader in Engineered Touch Point Solutions, to offer a complete security solution. This solution is engineered to resolve all security concerns of Data Centres. The solution strengthens security of the data racks user-wise and rack-wise using biometric technology. Matrix biometric terminal triggers the Southco electronic lock to unlock for a pre-defined time interval. Moreover, it even notifies the administrator in case of real-time abnormalities.

Matrix Access Control solution is a comprehensive and flexible [access control](#) solution by which data racks are biometrically secured with records of every access along with its duration. Only authorized person can get access of specific rack for the stipulated time using biometric verification.

Southco's Electronic Locking solution features an efficient microprocessor controlled gear motor design that ensures minimal power consumption and provides intelligent locking and monitoring capabilities. Hence, the amalgamation of these splendid solutions results in extraordinary and vastly beneficial end customer solution.

"Such an amalgamation of comprehensive access control strategies with perceptive electronic locking mechanism will rectify the security glitches at Data Centres. The solution is designed explicitly, whereby security and safety at the Data Centres is not compromised. This association renders and resolves all security challenges faced by Data Centres related to controlling access", says Jatin Desai, Marketing Manager - Access Control and Time-Attendance.

About Matrix

Established in 1991, Matrix is a leader in Telecom and Security solutions for modern businesses and enterprises. Matrix, an innovative, technology driven and customer focused organization, is committed to keep pace with the revolutions in the telecom and security industries. With more than 40% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products like IP-PBX, Universal Gateways, VoIP Gateways and Terminals, GSM Gateways, Access Control, Time-Attendance and Video Surveillance solutions. These solutions are feature-rich, reliable and conform to the international standards. Having global footprints in Asia, Europe, North America, South America and Africa through an extensive network of more than 1000 channel partners, Matrix ensures that the products serve the needs of its customers faster and longer. Matrix has gained trust and admiration of customers representing the entire spectrum of industries. Matrix has won many international awards for its innovative products.
