

Vadodara, (12th June, 2017)

Matrix to Showcase its Enterprise Grade, Well-engineered Security Solutions at SAFE SOUTH 2017, Chennai (June 29 – July 1, 2017)

Matrix, a leading manufacturer and provider of Telecom and Security solutions, is participating in SAFE SOUTH, Chennai from June 29 to July 1, 2017. Matrix will be showcasing its Video Surveillance, Time-Attendance and Access Control solutions at the event.

Matrix will showcase its enterprise-grade Video Management System designed, engineered and built specifically for growing multi-location organizations. The entire solution is focused on automating processes and enhancing efficiency of your organizations. Matrix Video Surveillance aims to provide centralized control over all the locations with well-crafted user defined roles and rights, to fulfil complex needs of multi-hierarchy organizations. Furthermore, moving away from traditional reactive security, advanced video analytics with real-time notifications provide organizations with preventive security, protecting your premises from all vulnerabilities. In addition to that, Matrix Video Surveillance is an open platform system, which integrates with all third party software, increasing an organization's capabilities manifold.

Under the Time-Attendance and Access Control domains, Matrix will be showcasing its cutting edge multispectral fingerprint based door controller - COSEC DOOR FMX. This advanced multispectral technology reads surface and subsurface of a fingerprint. It gives very clear and strong image even if the surface layer is not available due to dirty, dry or oily finger, poor ridge image or other environmental problems. This unique identification process outperforms all other fingerprint sensors and offers robust and reliable biometric information of a user.

Matrix will showcase its newly launched 8 Port Input-Output Controller that can control an elevator up to 32 floors. Solutions like QR Code based Access Control, Bluetooth based Access Control and Auto Attendance Marking using GPS/Wi-Fi would be showcased as breakthrough under 'Mobile as a Credential' technology.

"During this exhibition, we will demonstrate our enterprise grade Access Control and Time-Attendance solution with real-time features and the Video Management System", said Sagar Gosalia, Senior Vice President Marketing and Sales.

Matrix looks forward to meeting customers and prospective system integrators at SAFE SOUTH 2017, Chennai (Stall number C-13), Chennai Trade Centre, Nandambakkam, Chennai, Tamil Nadu from June 29 to July 1, 2017 to discuss their requirements and offer better solutions.

About Matrix

An innovative, technology driven and customer focused organization, Matrix is committed to keep pace with the revolutions in the telecom and security industries. With more than 40% of its human resources dedicated to the development of new products, Matrix has launched cutting-edge products like IP Video Surveillance, Access Control, Time-Attendance, Unified Communications, IP-PBX, Universal Gateways, Convergence, VoIP Gateways and GSM Gateways. These solutions are feature-rich, reliable and conform to the international standards. Having global footprints in Europe, North America, South America, Africa and Asia through an extensive network of more than 500 channel partners, Matrix ensures that the products serve the needs of its customers faster and longer. Matrix has gained trust and admiration of customers representing the entire spectrum of industries. Matrix has won many national and international awards for its innovative products.
